Therapeutic Treatment System**

For Professional and Home Use

*Leading Edge Bio-Technology
to support health
and well-being*

US. FDA approved Medical Device

BioMat™ Amethyst is a unique innovation in bio technology containing 17 different layers and more than 30lbs of amethyst crystals which naturally produce and are superconductors of Far Infrared Rays

1. **Surface Material : Silicon Urethane**
2. **Amethyst Crystals (Amplify Far Infrared Rays)**
3. **Double Protected safety layer**
4. **Hyron Cotton Layer (Thermal Insulation Layer)**
5. **Air Roll Padding Cottons**
6. **Water proof Layer**
7. **Japanese Kurera's Super Fiber**
8. **First Fiber Glass Layer (The interception of Water Vein Waver and Harmful Electromagnetic Waves)**
9. **Japanese Kurera's Super Fiber**
10. **First Urethane Protector Layer**
11. **Solid Square cotton padding**
12. **Second Fiber Glass Layer (Prevents Overheating and Electromagnetic Waves)**
13. **2000 Tm Semi Conductor Heating Plate**
14. **Second Urethane Protective Layer**
15. **Padding Hyron Silk Cotton Thermal Insulation Layer**
16. **Concentrated Ceramics (Reflect Infrared Rays)**
17. **Bottom : High Quality Silk Cotton Layer**

- When the Bio Mat™ mx Amethyst is turned on pulses of energy ((DC-Current) radiate through the layer containing the Japanese Kurare Carbon Ceramic Super Fiber Material generating Long wave Far Infrared Rays (8-12 micron) that the human body can easily absorb.
- The superconductor properties of the amethyst crystals amplify these Bio Natural rays so they can penetrate the body up to six inches unlike most other far infrared technologies which only penetrate 1 to 1.5 inches.
- Bio Mat™ mx Amethyst also has a special function that generates a discharge of negative ions into the air and transforms positive ions to negative ions inside the human body. This process changes the acidic condition of the body to alkaline which is its natural healthy state.

Bio-Mat™ mx Amethyst Professional Package

This mat comes in a massage-table size for all-purpose functionality and ease of mobility. A great tool, for massage therapists, chiropractors, or individual who works in a Health-related field. It comes with a travel case and 100% cotton/ silk padded cover.

FAR INFRARED IN THE BODY

According to Dr. Tsu-Tsair Oliver Chi, in his summation on the mechanism of action of infrared devices tuned to the human body, "...these rays are selectively absorbed by tissues needing a boost in their output. The internal production of infrared energy is associated with a variety of healing responses and may require a boost to a maximal level to insure the fullest healing response possible in a tissue which is being repaired. After boosting a tissue's level to its maximum, the remaining rays pass onward harmlessly. This phenomenon is called 'resonant-absorption.'"

NEAGATIVE IONS IN THE BODY

Negative Ions are shown to be the "Master Power Switch", which activates the body's entire cellular communication system and makes every single body function work better. (Nobel Prize in Medicine 1991 - Reviving the Cell - When the amount of Negative Ions in the blood increases, the function of the cell is activated. Thus increasing nutrient absorption, waste elimination, metabolism and cell function.)

Through research done by Dr. Tanaka in Japan, it was discovered that when Negative Ionization is introduced, the Ions in calcium and natruim (salt) in the blood increases, and the blood is purified by increasing blood alkaline.

Eases Joint Pain and Stiffness

Infrared ray heat therapy is widely used to treat patients suffering from many forms of arthritis. In addition, it has been proved effective in the treatment of sprains, neuralgia, bursitis, muscle spasms, joint stiffness and many other muscular-skeletal ailments. Much of the stiffness, aches

and soreness that comes with aging is reduced or eliminated

Speed Recovery

The deep heat of Far Infrared helps peripheral blood vessels dilate, bringing, relief and healing to muscle and soft tissue injuries. Increased blood circulation carries off metabolic waste products and delivers oxygen-rich blood to oxygen-depleted muscles, so they recover faster.

Increases Blood Circulation and Strengthens Cardiovascular System

FIR activates enzymes that stimulate the production of Nitric Oxide a key biological messenger, playing a role in a variety of biological process. "The more nitric oxide produced in arteries, the more the muscles relax and increase in diameter. Blood pressure also falls in the process.

Improves the Immune System

Far Infrared's deep heat raises your body temperature, inducing an artificial fever. As it works to combat the "fever", your body's immune system is strengthened. Combined with the elimination of toxins and waste produced by the sweating, your overall health and resistance to disease is increased.

Assists in Dextoification

Increased blood circulation and the opening of the ionic channels in the cells stimulates the release of built-up toxins and waste. Daily sweating can help detoxify your body as it rids itself of an accumulation of potentially carcinogenic heavy metals, as well as alcohol, nicotine, sodium, sulfuric acid and cholesterol

Reduces Stress and Fatigue

The gentle warmth of your Far Infrared gives you an overall massaging effect, soothing jangled nerves and knotted muscles. You'll feel rejuvenated and renewed, restored in both body and mind.

Improves Skin Tone

Increased circulation achieved after just a few minutes on the Bio Mat carries off deeply imbedded impurities and dead skin cells, leaving the skin glowing and immaculately cleans. This draws your skin's own natural nutrients to the surface.

Burns Calories and Controls Weight

As you relax in the gentle heat of the far infrared, your body is actually hard at work, producing sweat, pumping blood and burning calories. According to a Journal of the American Medical Association report, in a single Infrared Ray session you may burn as many calories as you would rowing or jogging for 30 minutes. So you lose weight – not just water.
